Can EFT Server’s OpenPGP module create ASCII armored files?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Version 6.1 and later

QUESTION

Can EFT Server’s OpenPGP module create ASCII armored files?

ANSWER

In EFT Server version 6.1 and later, you can configure EFT Server Event Rules to generate ASCII armored output.

For information about OpenPGP, including ASCII Armor, refer to RFC 2440.

For more information on how you can do this within eft, please see the online help for your version and look for the article titled "Cryptography: OpenPGP Action"
