

Can I configure EFT to run executables, batch files, and scripts automatically when specific events occur?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT, all versions

QUESTION

Can I configure EFT to run executables, batch files, and scripts automatically when specific events occur?

ANSWER

Yes, you can configure EFT to run executables, batch files, and scripts automatically when specific events occur using either the Custom Command Action (commands) or PowerShell Script Action in event rules.

When the Event Rule is triggered, EFT executes the specified script and attributes. You can also add EFT variables.

Execute Command

Choose an existing or create a new Command:

Executable path:

Executable switches and/or parameters:

Working directory (if different from executable path):

Command parameters:

Replace executable %1%, %2%, etc positional parameters; event context variables (e.g. %FS.PATH% etc) can be used.

Context variables (can be inserted as parameters):

Event Properties	
Event Time	%EVENT.TIME%
Event Time Stamp	%EVENT.TIMESTAMP%
Event Date Stamp	%EVENT.DATESTAMP%

☒ Wait until this step completes before running the next step

OK Cancel

Can I configure EFT to run executables, batch files, and scripts automatically when specific events occur?

To read more about running executables, batch files, and scripts automatically in EFT event rules, refer to the help in your version of EFT.
