

# Windows Virtual Server 2005

## **THE INFORMATION IN THIS ARTICLE APPLIES TO:**

- EFT Server
- Secure FTP Server

## **SYMPTOM**

EFT Server or Secure FTP Server hangs, becomes unresponsive, or will not accept connections on Windows Virtual Server 2005 with multiple IP addresses. This in turn causes problems with the sites.

## **RESOLUTION**

Do not run EFT Server or Secure FTP Server on Windows Virtual Server 2005 unless you are using only one IP address.
