CuteFTP - Filtering Transfers
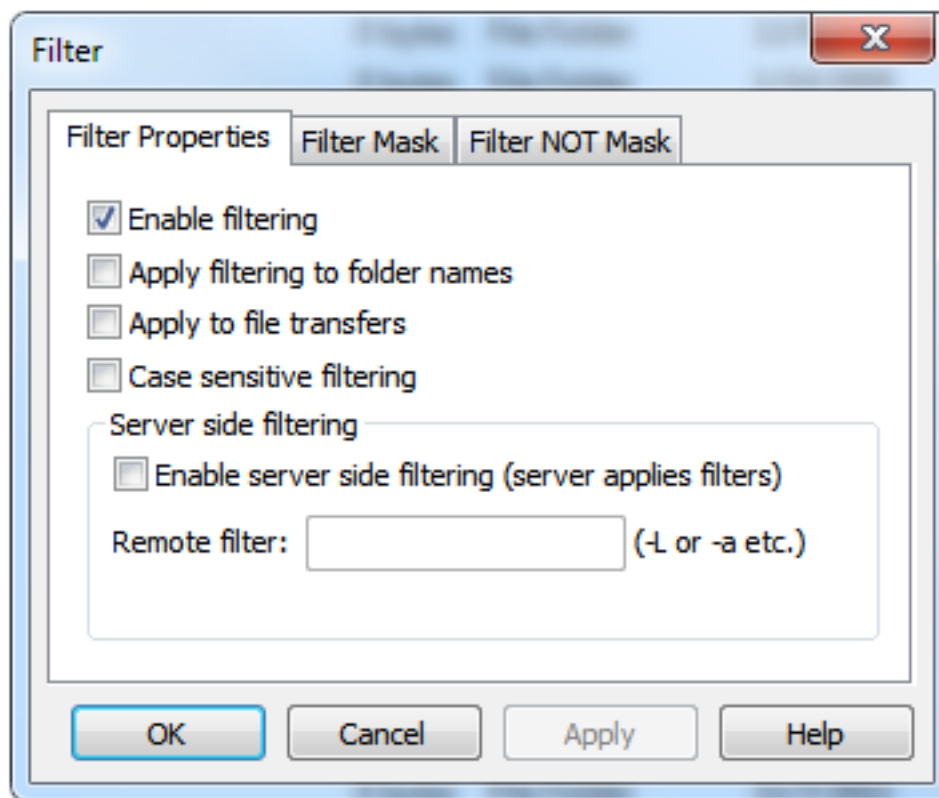

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- CuteFTP®

DISCUSSION

Using filters, CuteFTP can be configured to automatically include or exclude files from transfers or hide/show files and folders. You can:

- Apply filtering to one or more folder names
- Apply filtering to file transfers
- Make filters case sensitive
- Use server filters

For details, refer to "Filtering the List of Files and Folders" in the CuteFTP help documentation.
