

Does EFT Server support the EPRT and EPSV commands?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server v 6.4 and later

QUESTION

Does EFT Server support the **EPRT** and **EPSV** commands?

ANSWER

EFT Server v6.4 and later (as both server and client) fully complies with [RFC 2428](#) for client-initiated negotiation of extended port (EPRT) and extended passive (EPSV) data connection modes. EPRT and EPSV are also supported in CuteFTP Professional.
