QUESTION

Is CuteFTP Mac compatible with Intel-based Mac computers?

ANSWER

CuteFTP Mac Pro version 3 was designed for use on both Intel-based and Power PC-based Mac computers. It is a Mac Universal application. Licensed users of older versions may be eligible to upgrade to CuteFTP Mac Pro 3 for a reduced price. For more information, visit the [CuteFTP Mac 3 Pro Upgrade page](#).

CuteFTP Mac Pro version 2 was designed for use on a Power PC-based Mac computer. It was not designed for use on an Intel-based Mac computer and has not been officially tested in that environment. It is not a Mac Universal application. *CuteFTP Mac Pro 2 is not supported on Intel-based Mac computers.*

CuteFTP Mac Home version 1 is not compatible with Intel-based Mac computers and is only intended to be used on Mac OS X versions *up to* 10.3.8 running on a Power PC processor.
