

## Is CuteHTML Pro Compatible with Windows Vista? (DEPRECATED)

### THE INFORMATION IN THIS ARTICLE APPLIES TO:

- CuteHTML Pro (All versions)

**NOTE: CuteHTML has been discontinued.**

### QUESTION

Is CuteHTML Pro compatible with Microsoft Windows Vista?

### ANSWER

**CuteHTML Pro is not supported on Windows Vista.**

**CuteHTML Pro 6** may run on Windows Vista without error for some users however special consideration needs to be made when activating the program. Please browse to [GlobalSCAPE Knowledge Base Article ID 10333](#) for activation instructions.

**CuteHTML Pro 5** will not run on Windows Vista.

No other testing has been performed on CuteHTML Pro running on Windows Vista and none is planned. There are no plans to release a Vista compatible version of CuteHTML Pro.
