"Unexpected Error 0x8ffe2740 Occurred" Error Message When You Try to Start EFT

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server, all versions

SYMPTOM

"Unexpected Error 0x8ffe2740 Occurred" Error Message When You Try to Start EFT Server

RESOLUTION

Microsoft IIS uses port 80 for HTTP communication. If you are running the IIS FTP server and EFT on the same computer, you can do either of the following:

- In IIS Manager, change the port bindings for the Web site to a port other than port 80.
- Stop the application that is using port 80, and then start the Web site from IIS Manager.
- Change EFT's HTTP port and then reset IIS (or the other application binding that port) to port 80 if IIS (or the other application) takes precedence over EFT.
