THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server Enterprise

QUESTION

Which version of Windows 2008 does EFT Server Enterprise run on?

ANSWER

All of them; however our testing was conducted on Windows Server 2008 Standard Edition (x86 and x86-64) and Windows Web Server 2008 (x86 and x86-64)

Which version you should use depends on the needs of your business. Microsoft has a detailed comparison chart of server versions on their website:
