How do I create a user on SQL Server 2008 for EFT Server?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server, version 6.3 and later

QUESTION

How do I create a user on SQL Server 2008 for EFT Server?

ANSWER

To add a user to SQL Express 2008 you can use the following two commands.
In this example, "WIN-P0\testuser" is the user. If it's local you can drop the system name and just use "testuser"

```
osql -E -S localhost\GLOBALSCAPE -Q "sp_grantlogin 'WIN-P0\testuser'"
```

```
osql -E -S localhost\GLOBALSCAPE -Q "sp_addsrvrolemember
@loginame='WIN-P0\testuser', @rolename='sysadmin'"
```
