Can I use EFT Server as an SFTP server with Cisco Unified Communications Manager (CUCM)?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server, version 6.0 and later

QUESTION

Can I use EFT Server as an SFTP server with Cisco Unified Communications Manager (CUCM)?

ANSWER

EFT Server (formerly Secure FTP Server) and its SFTP module were certified to interoperate with CUCM versions 5.1.x and 6.1.x in 2008. Cisco has since upgraded their CUCM, and Cisco's documentation continues to recommend GlobalSCAPE's SFTP server in its documentation.

- For information about configuring Cisco Unified Communications Manager applications, refer to the appropriate Cisco Unified Communications Manager documentation at http://www.cisco.com/en/US/docs/voice_ip_comm/cucm/service/8_5_1/car/caranrpt.html#wp10828 (and others).
- For information about installing and configuring EFT Server, refer to the in-application help or the online user guides for your version of EFT Server.
