What do the error codes in EFT.log mean?

**THE INFORMATION IN THIS ARTICLE APPLIES TO:**

- EFT Server, all versions

QUESTION

What do the error codes in EFT.log mean?

ANSWER

Error codes in EFT.log depend on the action taking place when the error occurred.

For example, in a Folder Monitor rule, error code "5 (0x5)" is system error that indicates that access is denied.

What do the error codes in EFT.log mean?

- For information regarding system error codes, please refer to the MSDN article at http://msdn.microsoft.com/en-us/library/windows/desktop/ms681381%28v%3dvs.85%29.aspx.
- For information regarding socket error codes and SFTP error codes, please refer to the online help for your version of EFT.
