Is EFT Server PA-DSS certified?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT Server, version 6.x and later

QUESTION

Is EFT Server PA-DSS certified?

ANSWER

EFT Server can handle cardholder data, but the application itself does not facilitate authorization or settlement. According to the PCI Security Standards Council, EFT Server is not eligible for PA-DSS certification as a Payment Application (PA) under the Data Security Standard (DSS). That being said, we have invested significant time and effort into complying with every applicable aspect of the PCI DSS 2.0 specification.
