Where can I find the EFT EULA/license?

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT, all versions

QUESTION

Where can I find the license (EULA) for my version of EFT?

ANSWER

For the current EULA for all editions and versions of EFT v7.4 and later, go to: https://www.globalscape.com/documentation

EFT prior to version 7:

A copy of the EULA is installed with EFT. You can find "license.txt" (Enterprise) or "license_core.txt" (SMB) in the EFT installation folder, which by default is:

C:\Program Files (x86)\Globalscape\EFT Server Enterprise

or

C:\Program Files (x86)\Globalscape\EFT Server

If you need a Microsoft Word version of the EULA, in Windows Explorer, right-click the text file, click Open with Microsoft Word, and then save the file with the DOCX extension.
