# Event rule sending duplicate emails in HA environment for User Account Created event

**THE INFORMATION IN THIS ARTICLE APPLIES TO:**

- EFT, v7.x and later

**SYMPTOM**

Event rule sending duplicate emails in HA environment.

**CAUSE**

Each running EFT HA cluster node fires the **User Account Created** event, and, therefore, runs all **User Account Created** rules.

**RESOLUTION/WORKAROUND**

Add an "If Node name" Condition to the Rule.

**MORE INFORMATION**

Refer to these topics in the online help for your version of EFT:

- HA FAQ
- User Events
- Server Conditions
