Chrome/Edge will not allow unsecured login session when HTTP and HTTPS are both enabled

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT, all versions using the latest Chromium browser

SYMPTOM

Chrome/Edge will not allow unsecured login session when HTTP and HTTPS are both enabled. Issue does not occur in Firefox.

CAUSE

A possible cause is a security update to the browser.

RESOLUTION/WORKAROUND

Use only secure connection with Chrome/Edge, or use Firefox. (Firefox might also make this change in a future update.)
