Close Finished Item Log

THE INFORMATION IN THIS ARTICLE APPLIES TO:

- EFT v8 and later

DISCUSSION

The advanced property specifies whether to close the finished item log.

Add the name:value pair below to the AdvancedProperties.JSON file in the \ProgramData\ folder for EFT (for example, **C:\ProgramData\Globalscape\EFT Server**):

{

"CloseFinishedItemLog":true

}

Set to 0 to disable. Set to non-0 value to enable. By default, successful logs are removed.

MORE INFORMATION

For more information about Advanced Properties, search for "Advanced Properties" in the help for your version of EFT.

For more information about EFT logging, search for "EFT Logging and Visibility" in the help for your version of EFT.

For pre-v8 versions of EFT, the registry value is

Software\Wow6432Node\Globalscape\TED 6\Settings\LogWindow\

Default is true (enabled); false is disabled.
